In 1980, Charles T. Morecraft was an employee of Exxon Corporation. He was a good employee both in the eyes of his union and in the eyes of his management, but otherwise he was unremarkable. He was just like hundreds of thousands of other blue-collar workers. He never considered himself exceptional. He was "just one of the boys".

Yes, Charlie was just like all the other seasoned workers at the refinery; he was certain that nothing could go wrong when he was in control. And he was right Except for this one time!

Charlie's message alters people's attitudes toward safety. Their actions and behavior go from being thoughtless, lackadaisical and routine to "safety first & always". Their consciousness is raised to a new level.

Charlie Morecraft is a powerful and dynamic public speaker. His audiences get a highly personal, private look at what happened to one man - - - and how it could happen to any one of us. As Charlie always says, "I'm just an ordinary guy...with an extraordinary story to tell".
