

Construction Angels is a 501(C)3 non-profit organization dedicated to supporting the workers and families in the construction industry. Our MISSION is to provide immediate financial assistance and grief counseling to the children and spouse left behind when a construction worker has a fatality on the job site. We offer construction scholarship opportunities to qualified applicants, and additional scholarships to surviving children of a fallen worker. Our VISION is to be an immediate source of support to construction families when the unthinkable happens. We believe in the importance of promoting family values, job site safety, continued education and the constant support of ONE OF OUR OWN! Please take the time to visit our web site constructionangels.us/ for additional information about who we are and the great things we are doing to help the families in our industry.

The 2018 Bureau of Labor Statistics estimated there are 7.2 million people working in the construction industry with projected steady growth over the next 10 years. OSHA reports well over 5,000 job site deaths each year and over 20% are in the construction industry. By supporting Construction Angels as a state sponsor, you will be showing these millions of workers that you understand the dangerous industry they work in and care about them and their families. We need the help from generous and caring companies like yours to help these many families.

Below are our yearly state sponsorship levels. Please contact me directly if you are interested in becoming a state sponsor or if you have any questions. Thank you for taking the time to consider partnering with us to support the many construction industry families in your state!
